This is definitely not your father's golf bag, though he certainly would enjoy all the features and organization it offers. Starting with an eye-catching 4-way organizer top with full-length dividers, this bag boasts organization a general would envy. You'll find 13 spacious pockets, including a locker pocket with secure pouches for everything from GPS rangefinders to cell phones to blackberries to wallets. The "quick-grab" pocket allows easy access to that "provisional" ball, and the external putter tube protects the "flat stick" while making it easy to "grab-n-go." So many innovative features – all designed with ease of use in mind.
